

 **CROC**[®]
ForkCoatings
Best grip for sure!

Best grip for sure!

CROC® coatings on forks effectively reduce the risk of accidents and save you time, money and trouble thanks to less damage to loads (possibly insurance claims), less clean-up work and smooth transport processes.

Increased slip resistance for the load

Protect loads

Noise reduction

Increased visibility of forks

Perfectly matched to individual applications

CROC® „red unprofiled“
Polyurethane
3, 5 or 10 mm thick**
Increased abrasion resistance

CROC® „blue unprofiled“
Polyurethane
3 or 5 mm thick**
FDA-certified*

NEW
Now also available in 3 mm thickness!

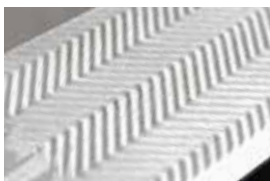

CROC® „red profiled“
Polyurethane
7 mm thick
Increased abrasion resistance

CROC® „yellow profiled“
Polyurethane
7 mm thick
Increased slip resistance

CROC® GripFix „black“
8 mm thick
Increased slip resistance even in wet conditions

CROC® GripFix „white“
6 mm thick
Food industry

CROC® spray coating
for all-around coatings and complex surface geometries

* FDA certification: Certificate for the use in the food industry (US-Food and Drug Administration)

** further thicknesses on request

Once mounted, CROC® coatings immediately increase safety and efficiency during the transport of goods.

Top workmanship and high-quality materials for the tough day-to-day use

✓ Polyurethane and rubber compounds made in Germany

✓ Equipped with collision protection at the fork tip

✓ High-tech special adhesive for long-lasting coating

✓ 1000-fold approved in practice

✓ The competence of Europe's No. 1 fork manufacturer

✓ High abrasion and cut resistance

✓ Temperature and weather resistant

✓ Resistance to oils, acids, chemicals and solvents

✓ Long lifetime
