

QualityForks with stainless steel claddings

For a safe transport in hygiene areas

- ▶ Compliance with hygiene requirements in the food and chemical industry
- ▶ Easy to clean
- ▶ Acid-resistance
- ▶ Protection against dirt
- ▶ Fixed cladding of fork blade / fork back
- ▶ Cladding material: stainless steel (1.4301)
- ▶ No cladding in the inner heel section
 - Easy crack examination
 - Possibility to carry out fork inspection
- ▶ Cladding thickness approx. 4 mm: Total increase of fork section (width and thickness) by approx. 10 mm each

The best surface for your application:
glass bead blasted and optionally
polished

- ▶ Homogeneous surface
- ▶ Superior design

For hygiene application we recommend the optional polished surface.

*Standard scope of supply: surface untreated
